Measurement of vapor pressure. [Motion picture] W. B. Saunders Co. Released by Modern Learning Aids, 1968.

12 min. sd. color. 16 mm.

Magnetic sound track.

SUMMARY: Tells how to determine the heat of vaporization of a liquid by studying its vapor pressure at various temperatures. Illustrates an analogous situation, showing how a chemist measures the relationships between properties in a chemical system and determines indirectly the specific property with which he is concerned.

Metric measurement for today. Part 2: Volume. [Motion picture] Metricraft. Released by Doubleday Multimedia, 1975.
11 min. sd. color. 16 mm.
Also issued in super 8 mm.
With teacher's guide.
SUMMARY: Visualizes the conceptual relationship among common metric units by using six actors to represent common prefix units. Explains the cubic units for expressing volume and capacity, focusing on the cubic centimeter, the cubic decimeter, and the cubic meter. Relates these units to the units of liquid volume: the milliliter, the liter, and the kiloliter.
